DESCRIPTION

The Aventura 36 Space, built in 2007, is lying in Bar, Montenegro. In 2025 the catamaran underwent a comprehensive service and refit ashore. Full hull and deck work was carried out: cleaning and polishing, fresh antifouling, and sanding and oiling of the teak surfaces. The wooden rubbing strake was replaced with a durable plastic one, and all wooden elements inside and out were carefully sanded and re-varnished. The technical side was also updated: engine anodes replaced, both sail-drives fully rebuilt and new switch panels fitted. UV strips on the jib and genoa were renewed, new nets were fitted forward, and fans were installed on the solar panels. New cockpit cushions were made and sealant seams cosmetically refreshed. The catamaran is fitted with a shortened mast (12 m) with an extended boom and a modern mainsail of around 45 m².

EQUIPMENT

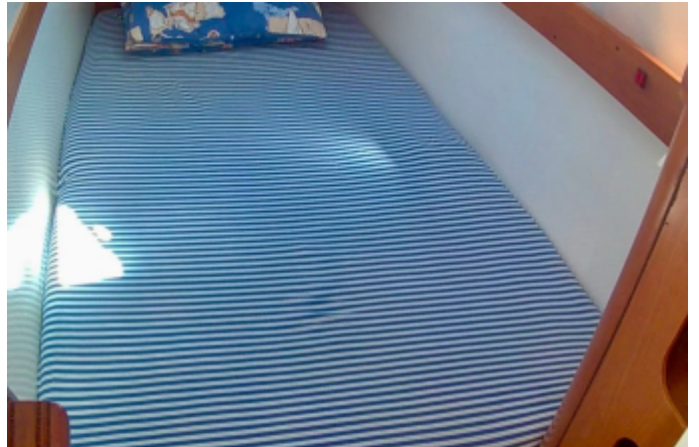

- radar JRC 1000MK2;
 - 2 x heaters Wallas (one in each float);
 - chart plotter on SIMRAD 12" (2017);
 - solar panels 2 x 120W (2019);
 - outboard motor for the dinghy Honda 10HP (Rebuilt in 2024);
- autopilot Raymarine;
 - radio on Raymarine 73 VHF-AIS (2019);
 - Italian desalinator 12V 30l/h (2019);
 - dinghy Zodiac 2.5m (2007);
 - 10 new life jackets;

- sailing equipment: main sail + jib on a roller furler;
- genoa on a roller furler;
- symmetric spinnaker with its own rigging.
