15.40 m	700 h

DESCRIPTION

The Leopard 50 is a catamaran from Leopard Catamarans, built in 2020, in excellent technical condition and ready for use. She offers a well-considered four-cabin layout. Comfort on board is provided by air conditioning in the saloon and all cabins, a fully automatic watermaker and a 9 kW generator, with six solar panels adding energy independence. Technical highlights include digital radar, AIS, twin YANMAR 80 hp engines and blue underwater lights. Additional equipment includes a 3.2 m tender with a Honda 6 hp outboard, cockpit and helm awnings, extra saloon blinds on the cockpit side and a retractable boarding ladder. A full pre-sale preparation has been carried out, including complete servicing and a full hull polish with a special water-repellent coating. The catamaran has seen very little use — just 700 engine hours and 150 generator hours.

EQUIPMENT

• Retractable platform	• Generator 9 kW
• Air conditioning in the salon and all cabins	• Desalinator (fully automated)
• 6 solar panels	• Additional cabin in the forepeak of the left float (shower, toilet, holding tank, bed)
• Digital radar	• AIS (transceiver)
• Optional YANMAR engines with 80 HP	• Underwater blue lights

- Tender 3.2 m with Honda 6 HP engine
- Additional blinds in the salon on the cockpit side
- New antifouling JOTUN Imperial
- Canopy in the cockpit and at the helm station
- Retractable, rising ladder
- Polishing of the entire hull and application of a special water-repellent coating
