DESCRIPTION

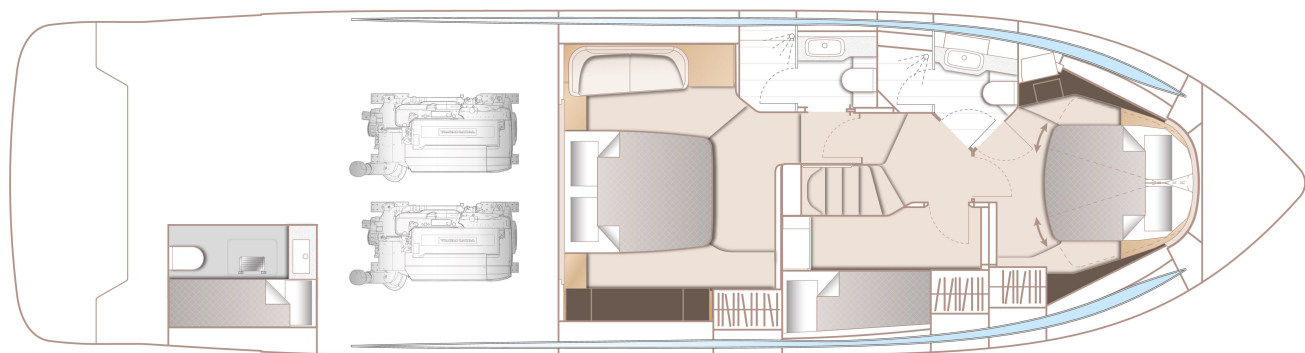

This model is the sweet spot of the V-class range. It was designed for active people who prefer to move quickly from marina to marina and from island to island. Here we see a differently configured cockpit – the comfortable sofa and folding table have been moved to starboard; the saloon is positioned opposite the galley. The ability to open the windows and slide back the roof, just as on the larger models in the range, transforms this yacht into a luxurious convertible on the water. On the lower deck you will find three double cabins with signature large windows and a double crew cabin.
